

# NON ASBESTOS WOVEN BRAKE LINING

Type Of Material

Friction lining, high efficiency

Material Description

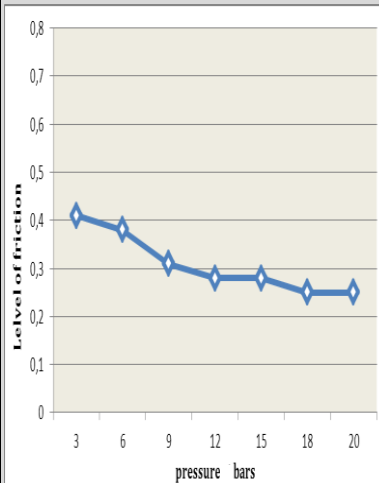

The non asbestos woven brake lining is specially manufactured to suit industrial applications like industrial brakes, construction, elevators, agricultural machinery and transmission brakes.

Performance

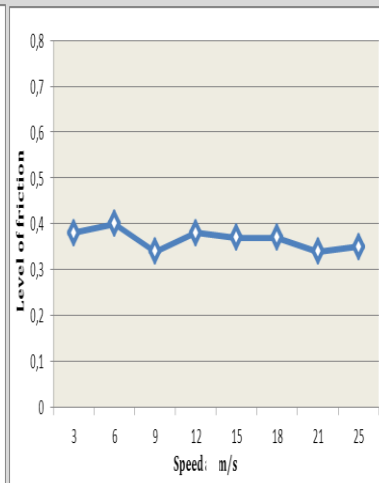

The product has performance of wear resistance, low wear rate, high temperature resistance and oil resistance.

Technical Data

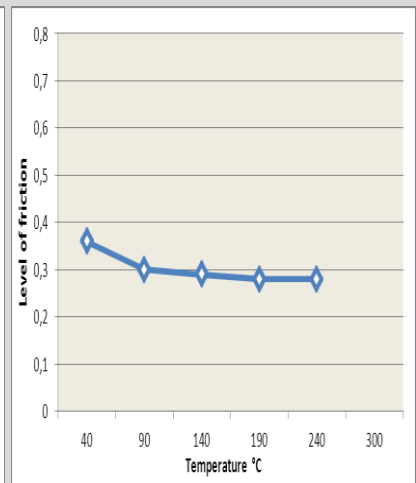

Friction dependent Pressure

Friction dependent the speed at 6 bars

Friction dependent Temperature

**Wear :**

**Rotation speed : 1432 (RPM)**

**Number of slowdown: 100-50-70**

Wear mm<sup>3</sup>/MJ in function of temperature
